PROFESSIONAL SUMMARY

A motivated and enthusiastic front-end web developer passionate about creating engaging and user-friendly web experiences. Seeking an opportunity to contribute my skills and knowledge in HTML, CSS, JavaScript, and React.js to a dynamic and collaborative team, while continuously learning and growing in the field of web development.

PROJECTS

Authie - Secure Authentication Platform:

- Developed an intuitive and user-friendly authentication interface for seamless user management.
- Built a responsive and dynamic authentication system using React.js, ensuring smooth interactions across all devices.
- Implemented email confirmation for identity verification, enhancing security and trust.
- Designed and integrated an account management feature for users to update personal details and credentials easily.
- Developed a profile picture upload functionality for enhanced user personalization.
- Ensured secure authentication using JWT, following industry best practices for data protection.
- Optimized performance to provide fast, efficient, and secure authentication processes.
- Maintained cross-browser compatibility and adherence to accessibility standards for inclusive user experience.

Task Master - Productivity & Task Management App:

- Designed and developed a clean, user-friendly interface for seamless task management.
- Built a dynamic and responsive web app using React.js, ensuring smooth usability across devices.
- Implemented task creation and deletion functionalities to enhance productivity.
- Integrated a search and filtering system to help users quickly find specific tasks.
- Ensured smooth state management for real-time task updates and interactions.
- Optimized app performance for fast load times and an efficient user experience.
- Maintained cross-browser compatibility and adhered to accessibility standards for broader user accessibility.

Tasks Posts Viewer - Interactive Post Management App:

- Developed a dynamic and responsive React application using Vite for optimal performance and fast HMR (Hot Module Replacement).
- Implemented Redux Toolkit for efficient state management, ensuring smooth data handling.
- Designed and integrated search functionality with debouncing for an enhanced user experience.
- Added pagination support to facilitate easy navigation through posts.
- Developed a modal system for viewing detailed post information with a clean UI.
- Utilized AOS (Animate on Scroll Library) to enhance user interactions with smooth animations.
- Ensured cross-browser compatibility and optimized responsiveness for a seamless experience on

various devices.

- Improved code quality and maintainability by implementing ESLint rules and best practices

Stream Movie Website:

- Developed a user-friendly and visually appealing interface for movie enthusiasts
- Created a stunning Dynamic and Responsive Movie Website using React.js for seamless browsing across devices.
- Designed interactive features such as a search function, movie genre and movie sliders to enhance user engagement.
- Optimized performance to ensure fast loading times and smooth user experience.
- Ensured cross-browser compatibility and adherence to accessibility standards for wider accessibility.

Portfolio Website:

- Developed a responsive portfolio website using HTML, CSS, and JavaScript to showcase personal projects and skills.
- Implemented smooth animations, interactive elements, and a mobile-friendly layout for optimal user experience.
- Integrated multiple means of contact and communication.

E-commerce website:

- Developed the user interface using HTML, CSS, and JavaScript. Made timely follow-up calls on initial contacts, to provide feedback and progress on issues raised.
- Created a visually appealing and responsive design for seamless browsing across devices.
- Designed interactive features like image galleries and product sliders to enhance user engagement.
- Optimized performance to ensure fast loading times and smooth user experience.
- Ensured cross-browser compatibility and adherence to accessibility standards for wider accessibility.
- Integrated a streamlined add to cart and checkout process.

EDUCATION

Bachelor of Science: Biochemistry., 01/2015 to 10/2018
Cross River University Of Technology – Nigeria
